Skills

Languages: C/C++, JavaScript

Technologies & Tools: ReactJS, Tailwind CSS

Education

NIT Jalandhar

2022-2026

B.Tech. in Electrical Engineering (Presently in 3rd Year)

CGPA:7.54/10

Project Work

- **Password Generator:** Developed a password generator using ReactJS and Tailwind CSS. It allows users to customize password length and character options, generating secure passwords instantly. The application features a clean, responsive design for ease of use on any device.
- **To-Do List:** Developed a To-do list application using ReactJS and Bootstrap. This app allows users to add and delete tasks easily. It features a responsive design with a user-friendly interface, helping users efficiently manage their daily tasks and stay organized.

Achievements

- Won "THIRD" Position in WEBJAM 2023 organized by GDSC NIT Jalandhar.
